

1. **Definitions** – per CH-01, in addition to the following:
 - A. **Supplier/Source of Supply** – A person who forms plans and leads the development, troubleshooting, and design changes of a random map script, in order for it to comply with all applicable requirements. The Supplier is the owner and point of contact for a map, but need not be the sole originator of all containing script or script-compiling materials. In the event of collaboration, it is presumed that the Supplier properly credited all co-creators and achieved consensus to apply the team’s work in support of this Alchemy AOE Competition.
 - B. **CSRM** – (C)omponent (S)pecification for (R)andom (M)ap: A technical document defining the needs for each map sourced specifically for the competition. Supersedes any general specifications, in the case of conflicting requirements.
2. **Overview** – This document provides definition for Supplier-designed custom random maps to be used in a “Space-themed” Alchemy AOE competition.
3. **Map Procurement Focal** – Direct all questions to BPDrej#8635 on discord. The Map Procurement Focal consults as needed with the Competition host to disposition any maps that do not conform to established requirements and determines, in his/her discretion –with input from subject-matter experts— the state of readiness for any map listed herein.

Bill of Materials:		Alchemy AOE	SPC-8	Revision
CH-01	Definitions			R2
See Table 1 for List of Component Specifications		Custom Space Maps, Supplier Designed

- 4. Map Pool Tabulation** – Table 1 below summarizes the designations, nomenclature, and suppliers of all maps that could be used in the “Space-themed” competition. It is important to note that their listing here is not a guarantee that such a map would be included, but rather a statement that no other map could appear in the “Space-themed” competition. Final selection from Table 1 depends on completion status, inspection standing, and discretion of the Map Procurement Focal:

CSRM Designation	Map Number	Nomenclature	Source of Supply
CSRM-HVN-01	HVN-01	Cataclysm	BPDrej#8635
CSRM-HVN-02	HVN-02	Comet	BPDrej#8635
CSRM-HVN-03	HVN-03	Nebula	BPDrej#8635
CSRM-HVN-04	HVN-04	Saturn	BPDrej#8635
CSRM-HVN-05	HVN-05	Jupiter	TechChariot#4776
CSRM-HVN-06	HVN-06	Singularity	Zetnus
CSRM-HVN-07	HVN-07	Syzygy	Jasuni
CSRM-HVN-08	HVN-08	Collision	Huehuecoyotl22
CSRM-HVN-09	HVN-09	Asteroid_Belt	TechChariot#4776
CSRM-HVN-10	HVN-10	Mars	TechChariot#4776
CSRM-HVN-11	HVN-11	Neptune	BPDrej#8635

Table 1: Listing of All Eligible Space Maps

There is no contest to determine which maps will appear in the competition referencing this specification. Instead, the random maps listed in Table 1 –and only those maps— are assured use if they are dispositioned as *ready* by the Map Procurement Focal.

Note that dates, schedule, time-tables, etc. are not included because this is NOT a binding contract to finish any work – if a map listed herein is not ready by the start of an applicable “Space-themed” competition, then it will simply not be used.
